

## TECHNICAL DATA SHEET

### Chemical Data:

NVW (%)	>99.0%
Appearance	Clear to Hazy Liquid
Visc. (cps)	1800
Flash Point	N/A
Chemical Stability	Stable
Density at 25°C	1.14 g/cm <sup>3</sup>
Storage	50 - <80°F

### Physical Data:

Maximum film thickness should not be more than 5 mil or 125 µm  
Good weatherability & Chemical resistance  
Dilutable by: esters, alcohols and aromatics  
High abrasion resistance  
Resistant to water, beverages, solvents, mild acids and oils  
Avoid thermal cure or accelerated curing conditions at high temp.

### Registration status:

SparkleTuff ingredients are listed in the following chemical inventories: ECL, EINECS, ENCS, NDSL, PICCS, TSCA.

All ingredients are listed on the TSCA inventory or comply with the TSCA Polymer Exemption criteria according 40 CFR 723.
